

Forever Freedom®

Forever Freedom® has combined Aloe Vera with other substances that are helpful for the maintenance of proper joint function and mobility in a tasty, orange-flavored juice formula.

We've taken Glucosamine Sulfate and Chondroitin Sulfate - two naturally occurring elements that have been shown to help maintain healthy joint function and mobility - and married them with our stabilized Aloe Vera gel. To this, we've added vitamin C and MSM, a primary source of bio-available sulfur the body needs to maintain healthy connective tissues and joint function.

Glucosamine Sulfate and Chondroitin Sulfate are natural substances that help maintain the structure and health of cartilage, keeping this natural "shock absorber" well hydrated. They also help keep the lubricating fluid within the joint at the necessary viscosity to allow one surface to glide freely over another. As the body ages, it is less able to produce these natural elements of healthy cartilage which can then lead to "wear and tear" on the joints.

Forever Freedom® provides the usually recommended amounts of Glucosamine Sulfate (1500mg), Chondroitin Sulfate (1200mg) plus 750mg of MSM and 250mg of Vitamin C per 4oz serving.

When combined, Glucosamine Sulfate, Chondroitin Sulfate, Vitamin C and MSM provide the first line

of support for healthy joint function. Make Forever Freedom® a practical and nutritious way to start your day! As with other FLP products, these ingredients are sourced naturally and are considered to be exceptionally safe. Make Forever Freedom® a practical and nutritious way to start your day!

Contains 100% Juice
